

 **TÄHTIPORRAS**

ONE STEP AHEAD

Tähtiporras

What would the eye-catcher of your home look like?

There is one particularly forceful moment. In a newly completed house, the protective plastic is pulled aside, and a sculpture that blends perfectly into the space is revealed from underneath. Once again, in cooperation with the customer, the architect and the developer, we have succeeded in creating stairs that match the spirit and atmosphere of precisely this home.

Over the years, we have noticed a change where the stairs are no longer placed in the darkest corner of the house in the drawings, but are boldly brought to the centre of everything in their festive lighting. Being part of this change has been inspiring. It is a sign that we are doing things right. If the task of stairs was once merely to enable passage between floors, in modern architecture they are a strong eye-catcher in the home. It has been a source of pleasure and pride to design key works of art for Finnish homes with our customers.

Take the floor plans, colour maps and mood images of your house project and head to our showroom. Let's design the most impressive element of your new home together!

A handwritten signature in blue ink that reads "Pasi Alanen".

Stairs

Tähtiporras is a Finnish stair manufacturer that delivers Tailor-made stairs according to the customer's individual choices. Our factory is located in South Ostrobothnia, where solid know-how in wood construction is available for our production. At our office in Helsinki, we do design work, follow industry trends and regularly add new products to our range in order to meet our customers' wishes regarding quality and interior design wishes in the best possible way. At the moment, homes want things like staircase lighting, slatted walls and more slender, but at the same time stronger structures.

You are welcome to our office to check out dozens of different colour and material options, get inspiration and design the stairs of your dreams. Homes vary as much as the people who live in them. That's why it's important for us to listen carefully to your wishes and offer a wide range of material options for both warm-toned wood construction and modern brick houses. The important thing is that the stairs represent the authentic soulscape of the house.

Stairs without stringers, attached directly to the wall?
Ask our salesperson for details!

LYYRA

In our stylish loft-styled Lyyra model, the railing consists of a metal element. The stringers are high-pressure laminate, and the upper surface of the stringer can be shaped into a “Z” shape to follow the step line.

Handrail: **KJ 7** and wall handrail **KJ 6**
Railing: **Metal spoke element**
Stringers: **High-pressure laminate, painted**
Steps: **Oak, stained**

In the Lyyra premium model, the railing surfaces are rectangular and the steps are reinforced; the stringer is shaped into a “Z” shape.

STELLA

The airy and simply stylish Stella stair has no posts at all; the glass railing is attached to the side of the stringer with brackets.

Handrail: **KJ 6**
Glass railing: **Safety glass**
Stringers: **High-pressure laminate, painted**
Steps: **Birch, stained**

The Stella premium model has no visible attachments at all. The front edge of the step is reinforced, and the stringer is shaped into a “Z” shape.

these stair models also available with metal stringers

DRACO

Our sculptural new model, Draco, is edgy and straight-lined.

Handrail: **KJ 6**
 Glass railing: **Safety glass**
 Stringers: **High-pressure laminate, painted**
 Post: **Rectangular metal railing posts**
 Steps: **Oak, stained**

these
 stair models
 also available
 with metal
 stringers

FEENIX

Our modern stair model has thin high-pressure laminate as the material of the stringers, as well as slender metal posts between the glass railings.

Handrail: **KJ 3**
 Glass railing: **Safety glass**
 Stringers: **High-pressure laminate, painted**
 Post: **Round RST post**
 Steps: **Birch, stained**

CAPELLA

A traditional wooden stair. In this stair model, the railing surfaces are attached to the side of the thigh plank and the hand rail. The handrails are straight-lined.

Handrail: **KJ 2**
 Railing spoke: **KP 1**
 Stringers: **Pine, painted**
 Post: **TT3**
 Steps: **Pine, stained**

POLARIS

Shaped wooden stair. In this stair model, the ends of the railing spokes are turned and attached between the stringer and the handrail. Curved shapes are possible for handrails and stringers.

Handrail: **KJ 1**
 Railing spoke: **RP 3**
 Stringers: **Pine, painted**
 Post: **TT2**
 Steps: **Birch, stained**

VEGA

A timeless, straight-lined stair. In this stair model, the railing surfaces are straight-lined between the stringer and the handrail.

Handrail: **KJ 2**
 Railing spoke: **RKV 2**
 Stringers: **Pine, painted**
 Post: **TT3**
 Steps: **Birch, stained**

ALAVA

An airy glass railing stair that brings spaciousness. This stair model has safety glass as the railing. In the Alava premium model, the glass railing is embedded between the stringer and the handrail, so there is no visible fastening.

Handrail: KJ 4
 Glass railing: Safety glass, bracket attachment
 Stringers: Pine, painted
 Post: TT3
 Steps: Birch, stained

All stair models are available as closed or open, in different colours and materials.

AURA

One of our most popular stair models; an elegant and simple stair. Aura is both classic and very contemporary at the same time. This stair model fits in both new modern detached houses and old locations being renovated. The railing may be of normal height, or if the structures allow, it can continue high upstairs, creating an impressive-looking whole.

Handrail: Stair rail KJ 4 and wall handrail KJ 2
 Railing spoke: MP 19 metal spoke
 Stringers: Pine, painted
 Steps: Birch, stained

Stair lights installed from us!
